Blood Electrification. A Proven Cure-All?

Abstract/Summary

January 12, 1997 Copyright © 1997/98 Robert C. Beck, D.Sc.

Climaxing centuries of medical research, an "accidental" re-discovery at Albert Einstein College of Medicine 1990 resulted in a reliable, positive, reproducible and recently patented (U.S. #5,188,738) cure for "incurable" diseases including AIDS, cancer, gulf war syndrome, biological warfare plagues plus emerging viruses. Essentially it consists of passing microcurrents (50-100 μ A) through flowing blood, which has the potential to eliminate all infections and is proven to restore damaged immune systems. This appears to have been suppressed because electromedicine instead of pharmaceuticals drastically limits cartel profits and re-empowers patients' sovereignty over all diseases. Strangely, it was never again mentioned except in Science News, March 30, 1991, pg. 207. The only cost to try this research is the cost of parts to build your own instruments or to purchase them from a reliable source.

Hundreds of thousands of men, women, and children receiving state-of-the-art medical care die traumatically and financially stressed every year with "incurable" diseases. But this breakthrough consisting of mild electrification of blood while still in the body is proving for some to be reliable, simple, rapid, highly effective and inexpensive. It requires no medicines, pharmaceuticals, or outside intervention. It can be used privately and gives people back to themselves. It is vastly superior to antibiotics and other known treatments, since electrification when properly applied has no side effects. Lifestyle changes to improve health are, of course, important as well.

Cancer treated by currently acceptable allopathic techniques (surgery, radiation and chemotherapy) costs an average of \$375,000 but patients seldom survive five years. With self-administered electrification, typical costs are under two hundred dollars. An optimally functioning immune system has long been known to eliminate cancer, yet cancer is generally treated as a separate disease. Electrification in the laboratory is secretly proven to work with a variety of diseases and no "antibiotic" or "charge-resistant" strains of infectious invaders or side effects are yet known to exist. But you may never see electrification mentioned in a politically correct or establishment-serving media. Results would be too fast, cheap, revolutionary and user-attainable for vested interest profits. The adaptation of this laboratory research for use by individuals is now yours to try. The author has spent several years researching all aspects of electrification and can suggest do-it-yourself apparatus and simple techniques which have the potential to safely eliminate all pathogens, bacteria, virus, parasites, fungus, and germs which devastate health and are immune system destroyers. Many previously dying patients have come forward now completely well and symptom free. Anyone can do this for himself if his unconscious death-wish agendas or disbelief in new discoveries or blind faith in the medical "priesthood" are overcome. If the user assembles his own system from scratch, everything should total about \$50 minimum up to \$450 maximum depending on which devices you make for this one-time investment. If working instruments are purchased from manufacturers, this cost could be more. Everyone using electrification should experience some health benefits immediately, even if not knowingly afflicted.

All four synergistic and essential elements are fully described.

They are:

- (1) Building or acquiring a functioning battery-powered blood electro-purifier that attaches externally to the Radial and Ulnar artery pulse points on one wrist. Suggested use is for a minimum of four weeks with daily electrification of two hours.
- (2) A very simple and inexpensive instrument for making any quantity of Ionic Silver Colloids for pennies ensuring anyone an intact secondary immune system.
- (3) A high-intensity magnetic pulser which destroys any residual germinating or incubating pathogens in lymph and other organs by inducing back e.m.f. in tissue consequently preventing self re-infection.
- (4) An ozone generator easily made with tropical fish store components to charge drinking water with O₃. Ozone comfortably detoxifies by oxidation any wastes which the body must eliminate to regain health.
